IN THIS ISSUE

- WELCOME LYNN GRAYBILL
- ANNUAL GIVING CAMPAIGN

News from HQ

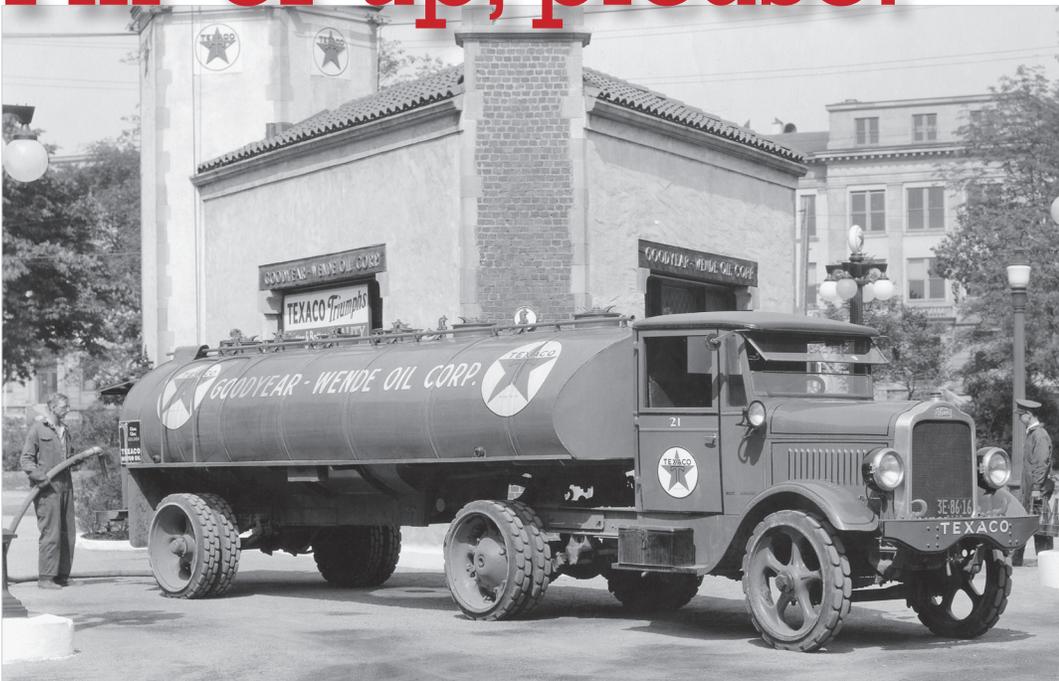

We are nearing the end of the 2016 Annual Giving Campaign and are quickly running out of gas toward our goal of raising \$75,000 in 2016!

As of the end of September 2016, we've raised only \$30,562.50, so we are making a final appeal in these last few months of the year for you to help us fill up this old gas pump and reach our goal of \$75,000.

Your tax-deductible donations keep ATHS financially stable for future generations of old truck enthusiasts. The money raised through our Annual Giving Campaign goes to endowments, reserve funds, headquarters maintenance, and other special projects that help sustain the American Truck Historical Society.

So, thank you for helping us ...

Fill 'er up, please!

Welcome, Lynn Graybill!

I would like to take this opportunity to introduce V. Lynn Graybill as the new Executive Director of ATHS. Lynn started work full time on Tuesday, Oct. 18, 2016, but has been coming into the office several days the past few weeks.

Lynn has a very broad background in trucking, distribution, membership, non-profits, and truck manufacturing organizations and served 10 years on a 501(c)3 Board of Directors, which raised \$35 million during his tenure. His experience as a professional driver/industrial engineer intern with UPS (while in college), shareholder/general manager of a family trucking company, chief executive of a Class 8 truck manufacturing company, and chief executive of a truck parts and equipment company have prepared him well to relate to and support ATHS members.

Lynn has reported to a board with executives and other committees for over 15 years and managed a non-profit membership organization with 180 chapters. The Executive Committee feels that Lynn is well prepared to lead ATHS into the future for the benefit of all members. Please welcome Lynn to the fleet. ■

– DAVE SCHROYER, ATHS President
